# GRADUATE PROGRAMS

Kansas State University Olathe offers customizable degree programs to enhance your knowledge and skills.

## **M.S. in Adult Learning and Leadership**

This master's degree is ideal for professionals who educate, train, lead, manage or plan programs for adults in a variety of professional fields. With 15 credit hours of electives, students can specialize in an area that best complements their professional needs and career goals.

## **Ed.D./Ph.D. in Adult Learning and Leadership**

An Ed.D. or Ph.D. prepares scholars for careers or advancement in colleges and universities or other educational or corporate settings.

## **Master of Agribusiness Animal Health Cohort**

Get the best of an MBA and a master's degree in agricultural economics. This degree is designed for working professionals in the Greater Kansas City area's growing animal health and agribusiness industries. The on-campus portion of the Olathe program is offered in August and October.

## **M.S. in Food Science**

This graduate program encompasses the full spectrum of food science, including food processing, product development, sensory analysis, and food safety and security in the food chain. The degree has three completion options: coursework only, a report or a thesis.

## **M.S. in Horticulture with an emphasis in Urban Food Systems**

The urban food system impacts economic development and provides a source of nutritious, safe food grown locally and regionally. Learn about sustainable agriculture, food systems project management and safe food production in an urban environment.

## **Industrial and Manufacturing Systems Engineering**

The K-State Industrial and Manufacturing Systems Engineering program offers three graduate degrees: M.S. in Industrial Engineering (MSIE), M.S. in Operations Research (MSOR) and Master of Engineering Management (MEM). Courses taught through K-State Olathe focus on problem-solving, efficiency and optimization methods, and are combined with learning experiences geared at helping students gain skills needed to be successful in today's work environment.

## **Master of Public Health**

This degree is part of an interdisciplinary program designed to promote graduate education for individuals currently employed in or anticipating a career in public health. The program objective is to prepare individuals to better address health-related issues at local, state, national and international levels. This program allows Olathe students to work in public health fields emphasizing food safety and biosecurity, and infectious diseases/zoonoses.

## **M.S. in School Counseling**

This master's degree is designed to prepare professional school counselors to be team leaders who implement comprehensive programs that are integral to the total educational program. Individuals interested in becoming school counselors will receive exceptional preparation to competently support students' academic, social and emotional development. The program is accredited by the Council for the Accreditation of Counseling and Related Educational programs, or CACREP.

# GRADUATE PROGRAMS

## **M.S. in Veterinary Biomedical Science**

This master's degree prepares and educates graduates to be the next generation of leaders in animal health by providing the latest knowledge of animal diseases and their impact on human health, as well as having the interdisciplinary skills in technology, business and more to solve problems in industry.

## **Professional Science Master in Applied Science and Technology**

A Professional Science Master's degree, or PSM, is an industry-focused graduate program that lets you pursue advanced training in the sciences while simultaneously developing the professional skills that employers value. Students also gain real-world experience throughout the program and during a capstone project, which immediately translate to the workplace.

# GRADUATE CERTIFICATES

Develop new skills and build expertise in a specialized area to advance your career and broaden your education. You can earn a graduate certificate online and on campus.

## **Graduate Certificate in Adult Learning**

The 15 credit hours adult learning graduate certificate is ideal for professionals who already have a master's degree, but want to expand their understanding of adult learning principles and enhance their skills in instructional methods, curriculum design and program evaluation.

## **Graduate Certificate in Leadership Dynamics**

Today's rapidly changing world requires leaders who can easily adapt, build effective relationships, engage and motivate employees, and develop and lead high-performing teams. The 15 credit hours leadership dynamics graduate certificate develops skills that will help you become a more effective leader at work — and in life.

## **Graduate Certificate in Professional Interdisciplinary Sciences**

The 12 credit hours professional interdisciplinary sciences graduate certificate delivers scientific and technical skills that employers value in the animal health and food sectors in Greater Kansas City and beyond.

## **Graduate Certificate in Professional Skills for STEM Practitioners**

The 15 credit hours professional skills for STEM practitioners graduate certificate offers working professionals management, communication and critical thinking skills necessary for leadership roles in the science, technology, engineering and mathematics — or STEM — industries and fields.
