

STARTING COLLEGE IN HIGH SCHOOL

Perla Weaver

Associate Professor and Department Chair

JCCC Computer Science and Information Systems

pweaver3@jccc.edu

DUAL CREDIT / JCCC COLLEGE NOW

Courses

- Offered at the High School by HS teachers
 - Have option to enroll at a University / College and earn college credit
 - Students must pay for college fees, some districts may have scholarships or special funds
-
- Math
 - English
 - Science
 - Social sciences / Humanities / Psychology
 - Computer Science
 - More!

ADVANCED PLACEMENT (AP) INTERNATIONAL BACCALAUREATE (IB)

Courses

- Offered at High School by HS Teachers
- Students take a national standardized test
- Test will determine the grade
- Universities and Colleges across the US have rules for acceptance
 - Based on grades and type of course
 - May be taken for full credit towards major, credit as electives, or for placement only

DIRECT ENROLLMENT

Enroll at a University or College while in High School

Must follow the process of the institution, many allow non-degree seeking students

Provide University/College pace and rigor

Summer courses are a good option

Kansas provides free enrollment for Excel in CTE courses for HS students

- Formerly SB 155
- JCCC course search by SB 155
- Career exploration courses
